

AGHYAD FANOUS

Homs, Syria • +963 99 139 1297 • aghyad.fanous.work@gmail.com

Summary

Full-Stack JavaScript Developer with hands-on experience building scalable web applications using React.js, Node.js, SQL and NoSQL databases (MySQL, MongoDB). Skilled in creating responsive, user-focused interfaces with Bootstrap and Tailwind CSS and implementing secure backend architectures with Express.js. Passionate about delivering clean, maintainable code and continuously improving performance. Seeking to contribute to a forward-thinking tech team where I can grow as a mid-level full-stack developer and build impactful digital solutions.

Experience

APRIL 2025 - AUGUST 2025

Front-End Developer | Focal x agency | Homs, Syria

- Completed advanced hands-on training in React.js with real-world project experience.
- Developed responsive web interfaces using React, TypeScript, Bootstrap, and Tailwind CSS.
- Implemented React Router for dynamic navigation and efficient state management.
- Applied clean code practices and built reusable, scalable components.
- Translated UI/UX designs into pixel-perfect layouts with responsive design techniques.
- Utilized Git for version control and optimized project structure for better maintainability.

AUGUST 2022 - FEBRUARY 2025

Full-Stack Developer | Freelance | Online

- Built and deployed 10+ full-stack web applications using React.js, Node.js, Express, and MongoDB.
- Designed responsive and accessible user interfaces leveraging Tailwind CSS and modern UI principles.
- Developed and integrated secure RESTful APIs with robust authentication, authorization, and data validation mechanisms.
- Followed industry-standard security practices to protect user data and backend operations.
- Collaborated directly with clients to define project scope, technical requirements, and delivery timelines.
- Applied clean code, modular architecture, and Git/GitHub workflows for efficient version control and teamwork.
- Gained over 3 years of hands-on backend development experience through consistent freelance projects.

JUNE 2020 - APRIL 2021

Web Content Manager | Chabban Group | Dubai, United Arab Emirates

- Developed and maintained a WordPress-based landing page for a UAE company and its subsidiaries.
- Built individual pages for multiple branches featuring company profiles, project showcases, and photo galleries.
- Implemented responsive layouts and intuitive navigation to enhance user experience across all devices.

- Managed content updates, applied basic SEO optimizations, and improved site performance for better visibility.

Skills

React.js • Node.js • Express.js • TypeScript • Tailwind CSS • Bootstrap • Prisma • Git • RESTful APIs • SQL & MongoDB

Education

2016 - 2023

Bachelor of Science (B.S.) | Information Technology Engineering | Al-Baath University Homs, Syria

- Focused on network design, administration, and security.
- Studied web development (HTML, CSS, JavaScript, PHP basics).
- Covered operating systems, Linux fundamentals, and database design with SQL.
- Learned algorithms, data structures, and software engineering principles.
- Gained practical experience in project planning and implementation.
